---

Gary,

Please see the attached tracking spreadsheet. Yesterday, we received the pesticide and PCB results from the soil samples. I have attached these new results. Please note, these PDF files only include the pesticide and PCB results. They do not include a repeat of the 3 day TAT data.

All of the herbicides are still pending (surface water and soil samples). We received the surface water and one of the soil EDDs yesterday afternoon. We just now received the second soil EDD. We are working on the summary tables with comparisons now. We are hoping to get you a draft as early today as possible!

Please let me know if you have any questions.

Kristie
